WHAT DID YOU DO?

We organized an online fair where all the students from Master in Cultural Studies could exhibit their project, organized for the course Cultural Policy.

WHAT DID YOU ACHIEVE?

All group projects got an online page on the cultural studies website. They had to provide creative content to present their work (video, pictures, text...). Everybody got the possibility to visit our website and have a look at the projects.

FUN FACT

Originally, we wanted to create a "living room vibe" on our event. The quarantine really gives us this opportunity!
