WHAT DID YOU DO?

Our Cultural Policy project consisted of two parts:

First, we evaluated WITHCulture and made a guide for the digital platform. Secondly, our team contributed to the crowdsourcing campaigns on WITHCrowd by organizing an annotation sprint session

WHAT DID YOU ACHIEVE?

With this project, we improved the WITHCulture platform by making it more user-friendly. Further, we helped cultural heritage institutions improve the quality of their collections metadata by promoting and contributing to the crowdsourcing campaigns on WITHCrowd.
