## WHAT DID YOU DO?

We did interviews and we held a workshop to get input for our exhibition.

Next we made an exhibition, we launched it at OPEK and we installed the MuPop-exhibition in Agora and in Stadsarchief Leuven.

## WHAT DID YOU ACHIEVE?

*Leive Vrigger en Naa* is a MuPop-photo-exhibition about the Vaartkom (Leuven). It shows the evolution of that area by using pictures and stories of inhabitants of the area.

The exhibition is a co-creation between us and some inhabitants of the Vaartkom.

## FUN FACT

We were afraid to advertise our exhibition, because our Facebookevent showed that the number of people interested in our event was 10 times more than the capacity of the space.
